Management basics for First-time (AI) Managers

Gianni Casagrande

ACCOUNTABILITY

1. Everything is management's fault

MANAGEMENT STYLES

2. Tannenbaum–Schmidt Management Continuum

Tannenbaum–Schmidt leadership styles

STYLE	Who decides: you · team	YOUR TIME	CONTROL	MOTIVATION	WITH AN AI
Tells · Sells					I decide and explain why; AI types it once
Consults					I draft, AI grills me, I decide what goes in
Shares					We iterate together; AI folds my feedback in
Delegates					I set the rails, AI drafts, I review and modify
Empowers					I set the rails, AI works, I only look at what it asks
Abdicates					Subagent opens a PR; AI merges; will never check

There is no right style - it depends on the task - person combination.
With people, there is a wrong style.
What about your own motivation?

Tannenbaum & Schmidt (1958), redrawn and simplified after Chris Croft's version · chriscroft.co.uk/wp-content/uploads/tannen_1.pdf

DELEGATION

3. Delegate when 80% as good

Efficiency

Bias protection

Coaching · motivation

MOTIVATION

4. Positive reinforcement and the 5:1 rule

Zenger & Folkman, “The Ideal Praise-to-Criticism Ratio”, Harvard Business Review (2013)

5. Influence and bias

- Expert power
- Time of day
- Availability
- Anchoring

TO CLOSE

6. The freedom ladder
